DETAILS

Family sessions can take place at an outdoor location or in your own home. The focus of the session will be to photograph your family interacting together and to capture your kids' personalities while you all have fun together.

For a family session, we will meet 2 weeks later for an in-person ordering session where you get to "oh and ah" over all your photos (it's okay to get a little emotional) and choose which heirloom products and keepsakes are great for your family and your home.

For a mini session, you receive an online gallery to choose your favorite 5 images for download and to order other products.

Oh my goodness, Katie, these are wonderful!!
Thank you so much; I can't believe how many
great shots you got! You have such talent.
Thanks again for these, we will certainly
treasure them for many many years.
